KEY BENEFITS OF EMDESK

EMDESK helps your consortium's management team run the project as smoothly and efficiently as possible – and you will benefit from this

H2020 specialized	Not just a generic project management software
Login only	No installation, no setup, no plugins
Single tool	One central project intranet and repository
Simple	Intuitive and proven interface and navigation, no training required
Easy	Less administrative burden for partners
Transparent	See the overall project progress in the dynamic Gantt chart
Timely	Get real time data on work packages, deliverables and milestones
Efficient	Instantly find and share project information and documents
Seamless	Quickly contribute to reports and track your project expenses and resources
Complete	Reporting and collaboration functions
Support	Immediate professional advise and assistance

WHY EMDESK REALLY HELPS YOU

Need to keep track of your costs, resources and payments?

Stay on top of your project costs vs. budget at all times.

Not sure what happened in your project in previous weeks?

Get a quick real time overview in EMDESK!

Want to keep on top of your project tasks, deliverables and deadlines?

Easy with EMDESK dashboard, work flows and alerts!

Can't find that file or email address?

Use a single depository for contacts and documents accessible from anywhere!

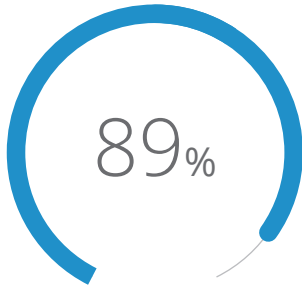

Confused with financial reporting?

Let EMDESK do the tracking, calculations and currency conversions.

Users report an average efficiency gain of 30%

95%
of those using EMDESK for H2020 proposals would use it again

EMDESK REFERENCES

- 15000+ registered users
- 2300+ projects & proposals

We have been really impressed with the software in helping make monitoring and reporting so much easier. The support services in setting up the system and answering questions were always excellent, concise and efficient. I have recommended this software to anyone who is preparing an EU bid as it takes away a lot of the pain of pea counting and formatting proposal and reporting documentation.

Prof. Jacqueline O'Reilly
University of Brighton, United Kingdom

I have completed both H2020 and ECSEL EU proposals during 2014, using EMDESK. What a big difference! EMDESK has made my life so much easier. Thank you very much. We are also going to use it for project management.

Dr. Thorbjörn Ebefors
Chief Technologist; Co-founder
and VP R&D, SILEX Microsystems
AB, Sweden

The use of EMDESK has made the task of managing much more rewarding. You can have full control over every aspect of the program with minimal daily effort. It's really an invaluable tool for managing projects (especially large ones).

Paolo Di Michele
Project Manager / SELEX

THE HUMAN BRAIN PROJECT

The FET Flagship project HBP runs EMDESK – for proposal submission and project management

Human Brain Project

We selected EMDESK to submit the HBP proposal after facing problems with other tools. We switched to EMDESK less than 3 months before submission and were very happy that the collaboration went so smoothly. The EMDESK team met our individual requirements quickly and professionally. With budget and administrative data to be consolidated for more than 80 partners, this was quite an achievement. I believe that such a big proposal could not have been prepared without its help and we plan to use EMDESK even more now, in particular as our project management tool.

Dr. Christian Fauteux
Chief Administrative Officer of the HBP
